DYNAMIC SOFTWARE ENGINEER WITH OVER 5 YEARS OF EXPERIENCE IN WEB AND MOBILE DEVELOPMENT, PASSIONATE ABOUT ADOPTING NEW TECHNOLOGIES AND BEST PRACTICES TO OPTIMIZE DEVELOPMENT PROCESSES AND IMPROVE OVERALL PERFORMANCE, PROVEN TRACK RECORD IN DELIVERING ROBUST APPLICATIONS AND INNOVATIVE SOLUTIONS THAT ENHANCE USER EXPERIENCE AND DRIVE BUSINESS SUCCESS.

EXPERIENCE

SOFTWARE ENGINEER at *DigitalCook*

August 2025 – Present

- Built a scalable marketplace platform using React, Tailwind CSS.
- Engineered APIs with Node.js, Express, .NET, Nestjs, and Laravel, and managed MongoDB databases for efficient data handling and scalability.
- Using N8N, I designed advanced automation workflows that handled real-time system events and reduced manual tasks by 40%. It was a game-changer for operational efficiency.
- Across all these projects, I collaborated with cross-functional teams to build scalable, production-grade platforms that blend full-stack engineering with GPT-based intelligence and automation.
- Technical skills: React, .NET, C#, Tailwind CSS, ExpressJS, Nestjs ...

SOFTWARE ENGINEER at *Neolegde*

Jul 2023 – Jul 2025

- Develop and integrate web and mobile applications using .NET, C#, Vue.js and Vite, while optimizing processes and ensuring efficient collaboration via Azure DevOps.
- Support all phases of development, from back-end to the front end, guaranteeing uninterrupted deployments for users.
- Technical skills: .NET, C#, Vue.js, Vite, Azure DevOps...

FULL STACK DEVELOPER at *Mosaique web*

August 2020 – Jul 2023

- Develop and maintain the back-end and front-end components of a website or application, diagnosing weaknesses and implementing corrective solutions.
- Ensure the posting of patches and the proper functioning of hosting infrastructures, guaranteeing a qualitative user experience.
- Technical skills: PHP, Laravel, Angular JS, MySQL, GitHub, Flutter...
